Profile Summary

Hello, I'm Amin, a C# programmer and backend developer with several years of experience in software development and building services and APIs based on .NET and ASP.NET Core. I am currently pursuing a master's degree in computer engineering, specializing in artificial intelligence, and expanding my expertise in machine learning, data science, and AI. I enjoy continuous learning, solving technical problems, and building reliable, scalable solutions. Alongside my hands-on experience in software development, I am continually strengthening my knowledge of AI and machine learning.

Work Experience

February 2025 - Present

Instructor | AI/ML Engineer | Data Scientist | .NET Developer

AIM Academy

Arak, Markazi, Iran

July 2025 - October 2025

Software Implementation Specialist

Narvan Iranian Intelligent Technologies

Arak, Markazi, Iran
